Summary

Associate Software Engineer candidate and M.Sc. Applied Data Science student (CGPA 8.60) with a strong foundation in Python, Java, Data Structures and Algorithms, and Object-Oriented Programming. Hands-on experience building end-to-end applications and machine learning pipelines. Seeking a Software Engineer / Associate Software Engineer role to design and develop scalable, efficient software solutions.

Education

SRM University, Chennai	<i>M.Sc. Applied Data Science</i>	CGPA: 8.60	2024 - 2026
VIT University, Vellore	<i>B.Sc. Computer Science</i>	CGPA: 8.17	2021 - 2024

Projects

AI-Powered E-Learning Platform - NLP, SQL github.com

- Developed an NLP and SQL-based feature to streamline query handling, cutting estimated resolution time by 40%.
- Designed use cases and system workflows for the platform.

Renewable Energy Forecasting & KPI Reporting - Python, ARIMA, Power BI github.com

- Engineered a Python-based ARIMA forecasting model on 5,000+ historical energy records.
- Built Power BI dashboards to visualize key performance indicators (KPIs).

Blood Bank Website github.com

- Built a blood bank web application that stores and manages blood donor details and donation records in one place.
- Added blood availability tracking so users can quickly check which blood groups are currently available and find matching donors.

Technical Skills

Languages: Python, Java, SQL, JavaScript

Web & Backend: REST APIs, HTML, CSS, JavaScript

Databases: MySQL, Oracle, MongoDB

AI/ML & Data: Scikit-learn, TensorFlow, ML Fundamentals, Pandas, NumPy, Matplotlib, EDA, Data Cleaning

Visualization: Power BI, Tableau

Fundamentals: Data Structures and Algorithms, OOP, Agile

Tools: Git, GitHub, Docker, Postman, VS Code, Jupyter Notebook

Experience

AI Data Annotation Intern - Lesoko Technologies Pvt. Ltd., Chennai Jan 2026 - Apr 2026

- Prepared BRD-style technical documentation for drone-based inspection workflows, aligning engineering and business stakeholders.
- Processed and validated 10,000+ thermal image records, identifying 15+ data inconsistencies to support AI model development.

Certifications

- Databases & SQL for Data Science** - IBM (2026)
- Data Analytics Job Simulation** - Deloitte Australia (2026)
- AI-ML Virtual Internship** - Google (2024)
- Introduction to Front-End Development** - Meta (2023)

Relevant Coursework

Data Structures & Algorithms • Object-Oriented Programming • Database Management (SQL) • Machine Learning • Data Analytics • Data Visualization
